SOV Policy re members' personal information

Save Our Valley Inc (SOV) collects some personal information, name and contact information about members through the membership form. We use this information to provide members with information about the organisation and its activities. We may also use the information to inform members about other organisations for the purposes of advancing the aims of SOV; that is, to alert the local community to the Priority Precinct development plans as they evolve, and act as a channel for the community to express their concerns; and to advocate for outcomes that respect existing residents' rights and values, and are compatible with local topography, amenity and heritage. We do not sell or provide that information to any other organisation. However, we may also use the information to inform members about other related organisations and activities where these help advance the aims of SOV.

How much does membership cost?

The fee is a very affordable \$10 per person, per annum, ending on 30 June each year. We welcome multi-year memberships

How we will apply your membership fee

We will only use your membership fee for legitimate costs such as printing fliers, hiring halls for meetings, and hosting a website. Your generous support, both financial and as a volunteer, will help us all to organise an effective community response.
